Our Vision

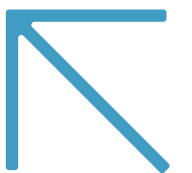

Our vision is to be the the most preferred and renowned name in Cooling and Technical solutions in INDIA

Our Mission

To meet our clients needs and requirements faster than our competitors in difficult and normal situations. To deliver high end technical services and building sustainable relationships with our team, clients, suppliers through transparency and care for the environment. We continually strive for ever higher standards of services

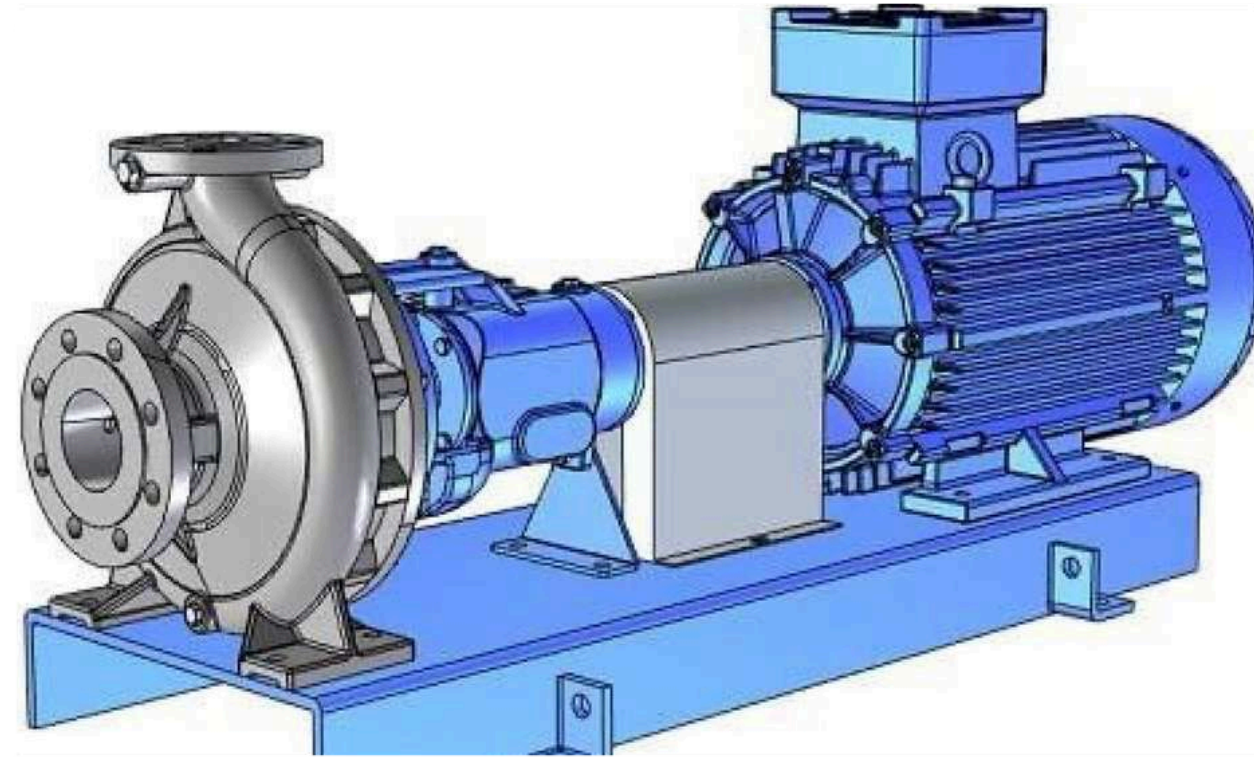

Our Values

- Integrity - We are honorable and ethical conviction
- Quality - We are passionate about excellence and doing our work right the first time
- Responsibility Taking ownership of the task in hand
- Teamwork - We inspire each other with work full of purpose, opportunities and rewarding careers
- Collaboration - With our clients, suppliers and across our team to deliver improved solutions

> Primary Pumps

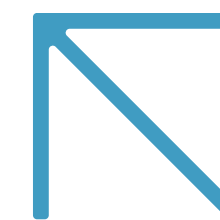

We implement the DDC BMS system over older non-DDC controls as it reduces energy costs by 30% or more.

As a cooling tower solutions provider, We offer troubleshooting diagnostics, repair, and reconstruction services for all parts related to fan and fan assemblies, whether a belt or shaft-driven fan operation.

> **Tower & Ductable Units**

5TR to 450TR
